Education

MSc Politics & Religion in the Globalisation Era

Sep 2009 – Jul 2011
Babes-Bolyai University

BSc International Relations & European Studies

Oct 2005 – Jul 2008
Babes-Bolyai University

Core Competencies

AI Engineering

Agentic retrieval / RAG, vector search, structured outputs, multi-provider LLM integration, workflow design, evals

Backend & Infra

TypeScript / Node.js, Express, Next.js, PostgreSQL, Prisma / Drizzle, Redis, Qdrant / pgvector, Docker, Python tooling

Automation & Tooling

Webhooks, event-driven systems, n8n (optional), GitHub Actions, Claude Code, Codex, Gemini CLI

Operations & Delivery

Product thinking, P&L ownership, stakeholder management, compliance and EU-funded delivery

Qualifications

WSET Level 2 Award in Wines
Level 3 Food Hygiene & Health & Safety
Fire Safety Management
Personal Licence Holder · Cellar Management
Full UK Driving Licence

Languages

Romanian (native) · English (fluent) · Spanish, Italian (intermediate) · French (beginner)

Professional Summary

Applied AI engineer and founder-operator building evidence-led portfolio systems for funding, municipal administration and hospitality workflows. Current work combines TypeScript/Node.js, Next.js, PostgreSQL, deterministic workflow design, retrieval, structured outputs and LLM integrations. Brings 10+ years of operations leadership, P&L ownership, teams of up to 50+, and delivery of €500K+ in EU-funded projects. Ship-focused, autonomous and founder-minded; comfortable owning a system from problem definition to working, inspectable software.

Experience

Founder & Applied AI Engineer | EuFund, Primăria, Grant Scout | London / Remote | 2025 – Present

- Primăria — public portfolio/pilot-stage municipal tax platform built primarily with Next.js, TypeScript, PostgreSQL and Prisma; deterministic tax modules, tenant/role controls, citizen and admin surfaces. No public deployment.
- EuFund — private-source portfolio project in active development: funding discovery, eligibility, drafting and review as a human-controlled workflow. No public deployment.
- Grant Scout — public Next.js/TypeScript agentic retrieval demo: 30-record snapshot dated 29 August 2026, deterministic eligibility, source citations, 11 unit tests and CI. Deployment is pending.

Founder | Mitch from Transylvania / MitchAI | London | 2024 – Present

- Founded a London food-market business; in parallel built MitchAI, a hospitality software prototype on Node.js, TypeScript and Express with a Next.js frontend and PostgreSQL. n8n and Ollama are optional integrations; no public production service is claimed.

Restaurant Manager | 108 Brasserie, Marylebone Hotel | London | Jun 2024 – May 2025

- Ran daily operations for a high-end modern European restaurant under LQA and Forbes standards; led a 35+ front-of-house team across scheduling, inventory, H&S compliance and revenue initiatives.
- Piloted AI-assisted operational tooling (rota drafting, supplier comms, guest insights) — direct input into the MitchAI roadmap.

Hospitality Manager | London Business School | London | Jul 2023 – Jun 2024

- Managed a 50-person team serving 1,000–2,000 guests per day; delivered VIP events for executives, donors and international dignitaries.
- Improved event operational efficiency by 25% by redesigning cross-team communication and service protocols.

General Manager | The Crown, Mosaic Pub & Dining | Stevenage | Feb 2023 – Jun 2023

- Rebuilt service standards and training programmes; lifted guest feedback scores by 40%.
- Rolled out a mobile-ordering app and digital workflows; full P&L ownership.

Selected Projects

Portfolio AI Systems | Architecture, Build & Evidence

Grant Scout — Cited EU Funding Agent Demo (public repository)

Next.js 16 · TypeScript · React 19 · AI SDK · Claude · OpenAI embeddings · Zod · Vitest · GitHub Actions

- Public proof asset: Next.js/TypeScript agentic retrieval application with a 30-record snapshot dated 2026-08-29 (29 August 2026), deterministic eligibility and source citations, 11 unit tests and CI.
- The historical 97.5% evaluation is labelled historical and was not freshly reproduced in the latest inspected CI run. Deployment is pending.
- <https://github.com/Bogdan0708/grant-scout>

Primăria — Multi-Tenant Tax Platform for Romanian Municipalities (public repository)

Next.js 14 · TypeScript · PostgreSQL + RLS · Prisma · Redis / BullMQ · Zod · Vitest · Docker

- Deterministic tax calculations for buildings, land and vehicles; citizen and staff/admin portals; tenant and role scoping; audit-oriented modules; PatrimVen XML export tooling.
- Portfolio/pilot-stage work: no public deployment, and legal/ANAF-related features are implementation evidence rather than certified compliance.
- <https://github.com/Bogdan0708/Primaria>

EuFund — AI-Assisted EU Funding Workflow (private source)

Next.js 14 · TypeScript · PostgreSQL / Drizzle · Qdrant · Redis · Docker · Claude / OpenAI / Gemini / local models

- Discovery → eligibility → drafting → compliance review organised as a human-controlled workflow with structured outputs and citation enforcement.
- Private-source portfolio project in active development; no public deployment is claimed.

MitchAI — Hospitality Operations Software Prototype (public repository)

Node.js · TypeScript · Express · Next.js · PostgreSQL · Redis · Docker · n8n (optional) · Ollama (optional)

- Routes and services for menus, orders, reservations, reviews, content, analytics and AI-assisted tasks, with tenant context, validation and rate limiting.
- n8n and Ollama are optional/configured integrations; no public production service is claimed.
- <https://github.com/Bogdan0708/MitchAI>

Earlier Experience

Assistant General Manager | Head of the River, Fuller's | Oxford | *Mar 2018 – Jan 2023*

- Drove a 98% increase in online sales (2020–2022) via digital marketing and mobile-app integration — #1 in Fuller's network for app adoption.
- Cut labour cost by 30% while raising guest satisfaction; ran a 300+ capacity riverside site with 25+ staff through peak season.

General Manager | Taina Lemnului (Heritage Restoration, EU-Funded) | Romania | *Jul 2011 – Dec 2017*

- Secured and managed €500K+ in EU grant funding across the full lifecycle: eligibility, application, documentation, implementation and audit.
- Led restoration work on 20+ UNESCO and heritage-listed sites; ran international workshops with participants from 10+ countries.

Financial Consultant | Loans, EU Funding & Grants Advisory | Romania | *Earlier career*

- Advised SMEs and individuals on loans, EU funding and grants — first-hand exposure to the paper-heavy workflows EuFund and Grant Scout are designed around.

What I Bring to Early-Stage AI Teams

A rare combination of applied AI engineering and real operational depth. I have run P&Ls, led 50-person teams, delivered €500K+ EU-funded projects, and navigated compliance-heavy workflows — the exact domains where AI is being deployed today. I build systems with that operator's lens: opinionated about what to automate, honest about what models cannot do reliably, and biased toward shipping working software and stating evidence plainly.
